

BE MONEY SMART.

Put up to \$500 in a medical FSA with **no risk** of losing it at year's end.

Putting Money in an FSA is Smart *and* Safe.

Everybody has medical bills, right? Expenses for prescriptions, co-pays, doctor's office visits, glasses and contacts, and dental work add up over the course of a year. With an FSA, you can **save 30%** on these expenses by paying for them with pre-tax dollars.

Keep your money, yours.

It can be a challenge to estimate how much money to set aside each year in an FSA. But now you have a \$500 safety net! New government regulations allow you to carryover up to \$500 (if allowed by your employer) of your unused medical FSA funds from year to year.

How much will you elect this year?

Enrolling in an FSA is a savvy way to save money on health expenses. Everyone who anticipates any out-of-pocket medical expenses should take advantage of the benefits of an FSA. There is no risk to contribute at least \$500. At the end of the year, if your medical expenses are below that amount, you can carryover any amount up to \$500 and use it next year—with no cost or penalties.

If you've participated in an FSA in the past, you already know how much you can save. And now you're safe to increase your annual election by \$500, knowing if you don't use it this year, you can carryover a maximum of \$500 to the next year with **no risk of forfeiture** at the Plan Year end.

FSA contributions are deducted pre-tax from your payroll. The more you elect, the more your taxable income is reduced—which means more take-home pay!

Be Smart! Enroll in a medical FSA today.

Other FSA benefits may be offered by your employer. Ask your employer for more information.
