D) Other Business
EDWARD OWEN stated that he felt that it was a bad decision to have approved the Lyman Terrace Site Plan Review. Although he was not at the 1/13/15 Public Hearing, he has read the minutes. The parking survey that was taken did not account for the many “significant others” that have illegally taken up residency. He has counted 170 cars located there on any given night. Many cars continue to park on his property with no regard for the “Cars will be towed” sign. He is the only one that is adversely affected by the decision of the Board. MR OWEN asked how he accomplishes getting the Planning Board to address the issue. JOHN KELLEY responded that dialogue between Lyman Terrace(HHA), Department of Transitional (DTA), and the City will occur to discuss the potential of permitted parking for the DTA employees.

MIMI PANITCH stated that the Board was not able to deny a project based on illegal activity that may or may not be occurring. EILEEN REGAN stated that all of the residents’ welfare was taken into consideration. JOHN KELLEY noted that from what currently exists, the proposed project would have additional parking.

EDWARD OWENS stated that he did not want to continue to be responsible for having cars towed. He recently went to the DTA and informed them that cars were about to be towed; two DTA employees were illegally parked.

MARCOS MARERO stated that the major problem is lack of clear delineation between the public right-of-way and private property located on Front Street. Funding has been secured from the City Council to hire a design engineer team. The challenge remains to secure the remaining funding for the Front Street Infrastructure Project. Once the streetscape is clearly defined, the auto users will be limited as to where they could park. Once the funding is secured, the public process would begin; the City would then be in a position to work with MR. OWENS to address his concerns.

EDWARD OWENS stated that he would have to deal with this until then. He has procured a guardrail to which he plans to install but was concerned that there is a discrepancy as to the location of the property line. JOHN KELLEY responded that he is very appreciative of MR. OWENS involvement during the Public Hearings and noted that the Planning Board can only work within the guidelines of the Ordinance. JEFFREY BURKOTT added that to install a guardrail MR. OWENS should contact the DPW and Building Department for the proper permitting.

Adjournment
There being no further business to come before the Planning Board, MIMI PANITCH, at 8:15 p.m., called for a motion to close the Planning Board Meeting. A motion was made by JOHN KELLEY and seconded by CHRIS LACHAPELLE. The motion carried 5-0.

Respectfully submitted,

Mark Joy, Secretary
